

# Season's Greetings

## Global Nordimpianti World Wide

In the last 40 years NORDIMPIANTI has developed from small beginnings to become a **leading global supplier** of equipment to produce prestressed concrete elements.

**NORDIMPIANTI** designs and manufactures a wide range of equipment, from a single machine to complete production lines specifically targeted to fulfil the technical requirements of local market conditions.

An **international network** of offices ensures that NORDIMPIANTI has a regional presence that understands your requirements and can respond quickly and efficiently wherever you are.
